

Tee Pee Bag

TeePee Bag

So called for its obviously suggestive shape, the teepee bag is a dandy beginner project.

Materials

-fabric rectangle 7 1/2" X 15", or any size which is twice as wide as tall, e.g. 10" X 20"

-zipper at least 7 1/2" or as long as the short side of the fabric rectangle

Ribbon or cord for handle.

Instructions

1. Cut fabric twice as wide as tall (Fig. 1).
2. Insert zipper into short sides of rectangle. (Fig. 2) Use zipper foot to top stitch next to zipper. Sew ribbon or cord loop 1/2" from zipper teeth.
3. Turn wrong side out and stitch across the bottom with zipper in center (Fig. 3a). Cut away excess zipper. Unzip. (do not zip closed)
4. Refold bag with zipper at the side (Fig. 3b). (It won't be straight down all along the side) Stitch across top, taking care to keep handle free. Turn right side out.
