

Folded Flying Geese

Cutting

2" x 4" finished Units

Fabric A: cut (2) 2-1/2" x 2-1/2" squares

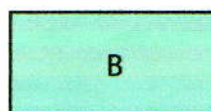

Fabric B: cut (1) 2-1/2" x 4-1/2" rectangle

3" x 6" finished Units

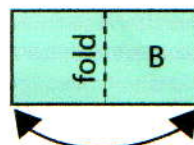

Fabric A: cut (2) 3-1/2" x 3-1/2" squares

Fabric B: cut (1) 3-1/2" x 6-1/2" rectangle

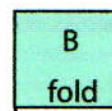

Fold and Sew

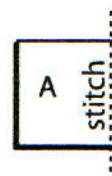

1. Fold the fabric B rectangles in half with wrong sides together and press the fold line.

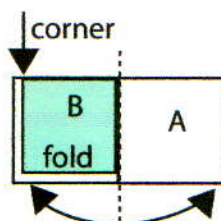

2. Place the folded rectangle on the right side of fabric A square with the folded raw edges of fabric B even with two adjacent sides of the fabric A square. There will be 1/4" of the fabric A square showing underneath the folded side of the fabric B rectangle.

3. Place a second fabric A square on top of the folded B piece, right side facing down and wrong side facing up. Stitch along the side of the stacked fabrics on the raw edge side with the folded edge of fabric B at the bottom.

4. Fold out the top fabric A square and press the seam line.

5. Pick up the top corner of the fabric B piece while holding the bottom corner in place with your other hand. Tug fabric B gently down to the opposite corner of the pressed out fabric A square to make the folded Flying Geese triangle. Press the diagonal fold lines of the Flying Geese folded triangle with bottom corners of fabrics A and B carefully aligned.
