

Mini Travel Bag- (Jewelry, Sewing Tools, etc.)

1. Cut 12" square from 2 different fabrics. Sew right sides together around outside, leaving enough opening to turn right side out. Turn. Press. Close the opening with whipstitch, or just topstitch all the way around.
2. Fold two opposite corners to the center (picture 2), overlapping like an envelope, so that width is approximately 5 1/2". Sew across center as shown in picture 3.
3. Fold the other two corners toward the center and sew across 1/2" in to form casing (picture 4).
4. Fold in half at center seam so flaps are on the outside (Picture 5). Whipstitch or topstich outer edges to form bag. You may want to whipstitch or just "tack" the point where the overlap is on the outer pockets. This gives you a bag with one main pocket and two outer pockets.
5. Cut 2 pieces of ribbon or cording 18" each. Run through casing in opposite directions and tie to form drawstrings.

Decorate with beads, sequins, buttons, etc as preferred.

Credit to MAGQUILT@aol.com Berlin, Germany (Marga Andresen-Gransow) for original pattern.

This bag can be made in any size, and additional pockets added on inside as preferred.
