

Templates

The templates for the Be My Valentine quilt are on pages 105–107. All have been produced full size except Template G, which is at 50% and will need to be double size on a photocopier. Templates B, C and G have been tinted red, indicating that, if desired, you do not need to make templates for these shapes as they can be rotary cut. Seam allowances have been included on all templates. See page 116 for advice on using templates.

This diagram shows an overview of the templates needed for the Be My Valentine quilt - see opposite and overleaf for the actual templates
