Login & Privacy

Invisible Mode:

- Invisible Mode on
- Invisible Mode off

 Invisible mode allows you to browse the forums without appearing in the 'Currently Active Users' lists.

vCard Download:

- Allow vCard Download
- Don't allow vCard download

 You may choose to allow other users to download a vCard containing your email address and username.

If you want to keep your email address private, do not allow vCard downloads.

Messaging & Notification

Receive Email:

- Receive Email from Administrators
- Receive Email from Other Members

 From time to time, the administrators and/or other members may want to send you email notifications or messages. If you do not want to receive email from certain people, then you may disable the options here.

Scroll all the way to the bottom to Miscellaneous Options. Click the button next to Enhanced Interface – Full WYSIWYG Editing

Different parts of the world traditionally use a different day as the start of the week. Select the appropriate day for your region here, in order to have the calendar appear correctly.

Miscellaneous Options

Message Editor Interface: Enhanced Interface - Full WYSIWYG Editing
 Basic Editor - A simple text box
 Standard Editor - Extra formatting controls

When posting messages to the forums or other members, there are three interface types available to you. The simplest of these is a simple text box, while the last is a fully-fledged WYSIWYG editor, which allows you to format your text as you want it and see the results immediately.

Depending upon the capabilities of your web browser, you may not be able to use all of these options. If you experience problems when posting messages, try switching to a different interface type.

Forum Skin:

There is more than one skin in which you can view the forums. If you would like to switch to a different skin, select it from this list.

Please note that some forums here may override your skin choice temporarily.

User Customizations: Show User Customizations
