

BOWTIE BLOCK

ALWAYS WORK FROM THE WRONG SIDE OF THE FABRIC.
IF, AT ANY TIME YOU ARE WORKING WITH THE RIGHT
SIDE FACING YOU, IT WILL NOT BE CORRECT

Fold and crease fabric so you have it divided into 4 equal sections. Place wrong side down

Pick up fabric at crease and bring to a corner and pin, working either clockwise or counter clockwise, pin all creases to a corner. Each center crease will now be pinned to a corner.

Your pinned fabric will now spiral around with a hump in the middle. Pat down the hump and the you'll see the smaller square form in the middle.

Here's what the back side should look like...but remember to just take a peek...work from the wrong side of the fabric!
